## Object Oriented Programming – 2017/2018 – 2nd Semester Self-evaluation form

Group:10	Oral discussion date: Penalization (days):					
Number: <u>80872</u>	Name: Carlos Henrique Silva	Expected mark:19				
Number: <u>90900</u>	Name:José Carlos Vieira	Expected mark:				
Number: 90989	Name: Pedro Esperança do Carmo	Expected mark:19				
Number:						
Please fill the following for	orm relative to the <b>implementation</b> of the projection	ect:				
General aspects:						
How do you classify the UML tool used (identify it)? Visual Paradigm						
Does your application use any external library, besides that provided within JDK?						
	es?):					
How many interfaces does your application have? $\Box 1$ $\Box 2$ $\boxtimes \ge 3$ : $\Box$						
Is your application extensible to further developments? X Yes No Partialy Does your application have at least one polymorphic invocation?						
No   No   Yes (methods?): method action on Event inheriting classes						
How many times the instanceof operator is used in your application (really count them)?0						
	1					
Which XML parser is us	ed to parse the input file? Simple AF	PI for XML				
Have external libraries been required? ☒ No ☐ Yes (which ones?):						
Do you provide a DTD? ☒ Yes ☐ No When parsing, is XML validated against it? ☒ Yes ☐ No						
	the fields, check visibilities that are used in the	code:				
Concerning visibility of the methods, check visibilities that are used in the code:						
☑ Public   ☑ Private   ☑ Package   ☑ Protected						
Concerning visibility of the classes, check visibilities that are used in the code:   □ Public □ Package  □ Poes your application contain any static field?  □ Yes (how many?): 4 □ No						
Does your application contain any static field?   ☐ Yes (how many?): 4 ☐ No  ☐ No  ☐ No						
Does your application contain any static method:  Yes (now many?):  X No						
	ontain any user defined exceptions.   — Tes (nov					
Simulation problem:						
Data structure of the eve		From java.util? \( \subseteq \text{No } \subseteq \text{Yes} \)				
Is it ordered? ☐ No	*	nparator				
_	nted as described in the project description and the					
Death: X Yes Reproduction: X Yes	<del>-</del>	☐ Not implemented ☐ Not implemented				
Move: X Yes	<del></del>	Not implemented  Not implemented				
		once in the PEC? X Yes \( \subseteq No				
Data structure of the ind		From java.util? No X Yes				
Is it ordered? No Yes, with a: Comparable Comparator Other						
Data structure for the grid: It's a class using multiple ArrayLists From java.util? No X Yes						
Are epidemics implemented as described in the project description? X Yes With faults No						
Are the best 5 individuals stored in memory? ☐ Yes ☒ No, they are calculated only when needed ☐ Other						
To decide which individuals survive epidemics, is a random number generated per each? ☒ Yes ☐ No						
Are nonsurvivors cleaned from memory?   ☐ Yes ☐ No (why):						
Is the best path always found when you run the xml five provided in the Project webpage? ☒ Yes ☐ No						

Global evaluation:		1.1 100	207 \ 2			
What was the degree of participation of each element in the g	_		-		07	
Num_ 80872 : 33.4 % Num_ 90900 : 33.4 % Num_	90989 : 30	3.3_% Num_		:_	%	
In the extent of your perception of the developed work, fill the	following tab	les:				
				Yes	No	
Project documentation						
Is the project correctly documented through comments in the source code?						
Was the javadoc tool used to build the documentation of the developed packages?						
Is it complete, with:						
- overview of packages?						
- summary of classes, interfaces and exceptions?						
- brief description of classes, interfaces and exceptions?						
- summary of fields, constructors and methods?						
- detail of fields, constructors and methods?				X		
Project compilation				Yes	No	
Does the project compile without errors?						
Does the project compile without warnings?						
If the answer is no, are all these warnings unchecked warning	ss?					
<b>Running</b> Yes No					faults	
Is the jar file runnable from the shell?						
Does the project read correctly the parameters?						
Does the project run with the input given in the project webpage?						
Does the project generate any supplementary information (status, debug, etc)?						
Development environment used?   ☐ Linux ☐ Windows ☐ Unix					Mac/O	
Java version used:8 e 9						
Was the final program tested in the laboratory workstations?   ☐ Yes ☐ No						
The following table is to be filled by the <b>professor</b> :						
Report	Yes/Good	No/Bad	Incomp	lete/F	air	
Cover identifies the course, authors and group number			тисоттр		an	
Goals of the work are very succinct but clearly stated						
Intelligibility of the document						
Structure of the document						
Clear/concise justification of main data structures used						
OO solution (extensibility, polymorphism, etc.)			<u>L</u>			
Critical evaluation of the application performance			<u>L</u>			
Description of functionalities beyond requested ones						
Conclusions						
Conclusions
